

# Alfa Laval TS6

Gasketed plate heat exchanger for a wide range of applications

## Introduction

Alfa Laval Industrial line is a wide product range that is used in virtually all types of industry.

The relatively short plate makes this model suitable for duties with short temperature programs and when a low pressure drop is appreciated. A large range of plate and gasket types is available.

## Applications

- Biotech and Pharmaceutical
- Chemicals
- Energy and Utilities
- Food, Dairy and Beverages
- Home and Personal care
- HVAC and Refrigeration
- Machinery and Manufacturing
- Marine and Transportation
- Mining, Minerals and Pigments
- Pulp and Paper
- Semiconductor and Electronics
- Steel
- Water and Waste treatment

## Benefits

- High energy efficiency – low operating cost
- Flexible configuration – heat transfer area can be modified
- Easy to install – compact design
- High serviceability – easy to open for inspection and cleaning and easy to clean by CIP
- Access to Alfa Laval's global service network

## Features

Every detail is carefully designed to ensure optimal performance, maximum uptime and easy maintenance. Selection of available features, depending on configuration some features may not be applicable:

- Corner guided alignment system
- Chocolate pattern distribution area
- Clip-on gasket
- Leak chamber
- Fixed bolt head
- Key hole bolt opening
- Lifting lug
- Lining

- Lock washer
- Tightening bolt cover

## Dimensional drawing

Measurements mm (inches)

## Technical data

| Component                          | Material                    |
|------------------------------------|-----------------------------|
| Heat transfer plate, Single plate: | 316/316L                    |
| Field gasket:                      | NBR, EPDM, FKM, HeatSeal    |
| Frame plate and pressure plate:    | Carbon steel, epoxy painted |

Other materials may be available on request.

## Operational data

| Specification                 | Value                                                        |
|-------------------------------|--------------------------------------------------------------|
| Pressure vessel codes         | pvcALS, ASME, PED                                            |
| Temperature range<br>°C (°F)  | From -48 to +250 (from -54 to 482)                           |
| Pressure range<br>barg (psig) | From absolute vacuum to 45.5 (from absolute vacuum to 659.9) |

Extended pressure and temperature rating may be available on request.

## Flange connections

Standard EN1092-1 corresponds to GOST 12815-80 and GB/T9124.1.

## Accessories

Available accessories for this product:

- Drip tray
- Protection sheet
- Heating insulation
- Counter flange
- Earthing

- Tightening bolt protection
- Lifting device

## General remarks for technical information

- The global offering presented in this leaflet may not be available for all regions
- All combinations may not be configurable

## Alfa Laval service offering

Our vision is to be your trusted partner for service, driving sustainable performance together. The Alfa Laval portfolio of service offers for Plate Heat Exchangers from start-up of your operations, through operation, process improvements, and replacement. Throughout the lifecycle, we bring you more than 140 years of technical experience and innovative service solutions tailored to your business needs. Easily accessible through our people all over the world.

For information about our complete service offering and how to contact us, please visit [www.alfalaval.com/service](http://www.alfalaval.com/service).

## Sustainability at Alfa Laval

At Alfa Laval we are committed to reaching net zero 2050 across our complete value chain. Our products and solutions support our customers to meet sustainability goals, boost circular business, and develop sustainable value chains. We are living our commitments by also setting clear targets to reach net zero emissions in our own operations and to reduce emissions upstream and downstream in our value chains. For more information about our sustainability journey and our sustainability targets aimed to drive efficiency and behavioural change to achieve better results in the short- and long term, please visit [www.alfalaval.com/sustainability](http://www.alfalaval.com/sustainability).
